1. The Amendment filed on September 6, 2005 has been entered.
2. Claims 1-5 and 7-15 are allowed.
3. The following is an examiner's statement of reasons for allowance: the closest prior art Darbyshire (US Patent No. 5,797,652) does not teach or suggest the limitations, such as, "the spindle having two oppositely handed, threaded portions longitudinally spaced from each other with respect to an axis the spindle rotates about" in claim 1 and the connecting means as claimed in claim 2 (renumbered as claim 16).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Claim 1 is generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 3-6, directed to the nonelected species, are no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim. In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

5. The Information Disclosure Statement (IDS) filed on September 6, 2005 has been considered. The Examiner drew a line through Hong, Gowing et al., and Klinger to avoid duplication since these references were cited in the IDS filed on July 15, 2003.

6. The drawings were received on September 6, 2005. These drawings are unacceptable by the Examiner since they do not comply with 37 CFR 1.84 as seen in Form PTO-948 attached. Applicant is reminded that in order to avoid an abandonment of this application, the drawings must be corrected in accordance with the instructions set forth in Form PTO-948.
